CHICAGO PRODUCE MARKET. D

CHICAGO, May 29 .- [Special Telegram to THE BEE. !- Fluctuations were swift, wide and puzzling in the wheat market to-day. First one side had the advantage then the other. If it be true that "He who laughs last laughs best," then the bears were good laughers, for fortune was decidedly with them at the close, although earlier in the session it was as decided against them. There was a fairly even balance between the bull and bear news received, but local influences were the most powerful. There was some long wheat to be sold out early this morning be cause of the break and weakness of yesterday afternoon, and this caused a lower open ing and an immediate decline of about 1/40 from yesterday's closing. Then very active buying began for Cudahy and for Jones. Kennett & Hopkins and there was a quick advance of 136c in the July delivery to which the above mentioned buyers devoted their entire attention. The more deferred deliveries showed much less improvement. It was noticeable that while July was advancing rapidly and December slowly in this market, July was declining and December advancing very slightly in New York. This was a condition of things which could not last and July began to decline slowly. At 12 o'clock that delivery stood at 8614c. Eight minutes later it had just fallen ic to 8514c, and in two minutes more had reacted 1/c to 25%c. Men were inquiring what news had brought about such a result. In fact there appeared to be no news to account for it. Buyers who had been sustaining the market thus far had withdrawn, and Hutchinson, Ream & Baldwin began selling heavily and stampeded the crowd. There was free unloading of long wheat. Cudahy and Jones began buying again at the decline established by the first break, and they stopped it only temporarily. With

opened at 84%c, sold up to 85%c, down to and closing at 83%c.

Corn ruled firm and a little higher through the morning session until just a few minutes before the close when a sharp break occurred. Trading was light in the early part of the session with the bears evidently made tim-orous by the masterly way in which the large receipts had been taken care of by bul houses without in any degree weakening the market. This indisposition to sell short seemed to be responsible for the early strength and small advance, rather than any great demand for the grain. The success of the wheat bears, however, seemed to en-courage their colleagues in the corn pit, and there was free selling during the last ten minutes of the morning session. July corn, which had opened at 54%c, and sold up to 55%c, dropped to 54%c, and closed at 54%c, down to 54%c, and closed at 54%c, down to 54%c, and closed at 54%c.

Of all cereals oats held their best in the morning the morning

frequent small reactions the price of July

wheat gradually dropped to 8414c and closed

at 84% c at 10'clock. It had opened, according

to official figures, at 86%c, but at the same time there were sales at 85%c. The highest point touched was 85%c. January wheat

speculative markets. The May delivery was especially strong under the continued covering of shorts, who at one time bid the price up to 375(c, a full cent higher than yester day's closing price. It closed at 37c. June cats opened and closed at yesterday's closing price—33%c—selling up at one time to 33%c, July cats opened at 33%c, sold at 33c and 33%c, and closed at 33%c. Trade was not so large as on recent days.

in the provision trade a quiet feeling again held control. For both cash and future de livery the movement was too limited to excite any interest, and the market was almost featureless. The product, however, was comparatively steady, and at 1 o'clock lard and short ribs were quoted some 2½c higher than last night's closings. Pork closed

unchanged to 234c lower.
Altrancon Session.—Wheat a shade ATTERNOON SESSION.—Wheat a shade firmer; May closed at 83½c, June closing at 84½c. July opened at 84½c, sold at 84½c, off to 84½c, up to 85½c, then off some, closing at 84½c, August closing at 84½c; September closed at 84c, December closing at 85½c. Corn for May closed at 55½c, June closing at about 54¾c; July sold 55%c, June closing at about 54%c, July sold at 54%c, Coloring at 54%c, August closing at 54%c. August closing at 54%c. Oats, seller, May was firm, sold and closed at 37%c. After the bell tapped it sold at 37%c. Other futures lower; June closed at 33%c; July sold at 33%c and closed at 33%c bid; August closed at 28%c source losed at 27%c. Pork 28% c asked; September closed at 27%. Pork was 2% higher and closed at \$14.02% for May and June; \$14.125 for July; \$14.223 for August, and \$14.20 for September; quiet. Lard was a shade easier; May and June closed at \$8.4234@8.45; July at \$8.4734; August \$5.501 

#### CHICAGO LIVE STOCK.

CHICAGO, May 29 .- [Special Telegram to THE BEE. |- CATTLE-The feature of the market to-day was the big receipts of Texans, some 200 cars, or say fully 4,000 head, the largest number on any one day this season so far. Taking this number out of the run left only a moderate supply of natives again out of which were only a fair number of steers that would suit the shipping and firessed beef trade, so that natives, especially light, nice, handy steers sold a shade firmer. although medium natives sold up to last week's prices, but anything that had to compote with Texans followed the down turn of 10@15c on the latter. "You may report a straight cut of 10@15c," said a sales man who had one-third of the receipts. Na tive butchers' stock shared in the down-turn on Texans, and native canning stock had also to stand its share of the drop. Dealers in stockers and feeders were more cheerful this morning and hoped for better trade, on account of the good growth of grass reported and prospects for better prices on fat cattle. Good to choice beeves, strong at \$4.50@1.00; common to fair, casier, \$1.00@4.35; cows and mixed, lower, \$1.00@3.50; stockers and feeders, dull. \$2.10.@4.00. Receipts of Texans, 4.000. 15@25: lower; steers, \$2.10@4.00; cows,

\$2,00@2,40. Hoos-Notwithstanding the light run and low prices business was slow and uncer-tain from the start to finish. With the fresh receipts there were 27,00 to 28,000 on sale, a sufficient number, especially on the heels of the big run yesterday. The big buyers bought so many yesterday they were in no hurry to look over the stock, in fact buyers for packing firms were "talking" lower prices, but as a ruld values underwent little or no change as compared with yesterday. In the southwestern division, where salesmen "cut loose" so recklessly yesterday, a few lots made more money. But in other divisions there was scarcely any change, the general market closing rather weak than otherwise. **Best** heavy made, \$5.60@5.65; mixed, \$5.45@5.55, **5.55**, largely \$5.50; light sorts, \$5.45@5.55, largely at \$5.50.

### FINANCIAL.

New York, May 29 .- [Special Telegram to THE BEE. | - STOCKS-There was a better feeling in stocks in London and on the continent and fair sized buying orders received from that market. This set the pace in Wall street and as to-morrow is a holiday and the market is being heavily oversold there was a sharp demand for shorts and the call for stocks in the lower crowd was better than on any day for a week. The opening was stronger with an advance of 14@14 points. Trading up to noou was fair but showed a falling off compared with yesterday that aggregated 112,015 shares, about three-quarters of which were of St. Paul, Reading and

Missouri Pacific. London bought 3,000 shares of Union Pacific and fair amounts of Reading and St. Paul. Washington parties again had the tip to buy Union Pacific and it advanced 1 point. The feature during the morning was the heavy selling of Missouri Pacific for long account and it dropped 1/4 but later rallied and recovered all the de cline. The St. Paul pool that has recently liquidated held 70,000 shares. When the discovered the company's carnings were decreasing and that the showing for April would be bad they began laying plans to get out, and employed Commacks' brokers to sell their stock, as they were the only ones who were able to sell large blocks of stocks without breaking the market to pieces. It is the talk on the street that the decline in Rock Island to 10514 yesterday was on the belief that the next dividend would be reduced There are only 40,000 shares floating around and that tends to check heavy short selling. New England was the weakest stock during the last hour and closed at nearly bottom prices, showing a net loss of 1 point on its poor statement. The only other active stock that showed a loss was Missouri Pacific, but it only lost 16. Gains of 16@116 were recorded, St. Paul heading the list. Reading showed an advance of 34, Union Pacific 34, cotton oil 34, Northern Pficific, preferred, 3 Northwestern 34. Total sales were 182,558 shares, including 35,800 shares of St. Paul, 33,500 of Reading, 20,000 of New England, 18,700 of Missouri Pacific, 16,600 of Union Pacific. Sales yesterday were 257,944 shares. Money closed at 114@2. Bar silver 9114. 927
